

ERAS Overview

The Electronic Residency Application Service

MS4 Class Meeting #2

July 8, 2019

ERAS Overview

Agenda

- Review of MS4 Class Meeting #1
- Navigating ERAS
- Identifying and Applying to Programs within ERAS

Review

Timeline Review: July - August

July – August Organize CV (follow template)

Meet with Dr. Fromme, if you have not already done so

Ask for Letters of Recommendation

Sign up for your ERAS/Graduation photo

Prepare for and submit your SVI (EM students only)

Write your Personal Statement

Send a draft to your career and specialty advisors for review

Edit your ERAS application to near completion

This timeline is designed for students applying through the regular match.

Timeline Review: August – Early September

August – early September

MSPE Review

Continue to edit your ERAS application and

Personal Statement

LORs uploaded

Timeline Review: September 5-15

September 5

Beginning of the 10-day period where you can certify
and submit your ERAS application
(Programs will NOT receive apps before 9/15)

September 15

Programs begin receiving applications
NRMP Registration opens
(You must register for both ERAS and the NRMP)

Timeline: October - December

October 1	MSPEs are released to programs
November 30	Deadline for NRMP registration
December 1	PSOM Step 2 test date deadline

LORs: How many letters do I need?

Categorical Programs: 3-4 total letters

- 3 clinical letters
- 1 research letter (if appropriate)

Note: You cannot submit more than 4 letters to a single program.

Advanced Programs: 6-7 total letters

- Prelim/Transitional Year: 3 clinical letters
- Advanced Program: 3 clinical letters
1 research letter (if appropriate)

Note: Letter writers can use the same letter for both applications, as long as they are generic in their specialty recommendation.

(i.e. "I recommend John Doe for your residency program" instead of "I recommend John Doe for your Pediatric residency program")

LORs: Do I need a Chair's Letter?

- Anesthesiology
- Medicine*
- Medicine-Pediatrics*
- Preliminary Medicine*
- Obstetrics and Gynecology
- Orthopedic Surgery
- Otolaryngology (Section Chief)
- Pediatrics (some programs)*
- Plastic Surgery (Section Chief)
- Surgery
- Urology (Section Chief)

**Another faculty member writes the letter in conjunction with the Chair.*

Emergency Medicine utilizes a “Standardized Letter of Recommendation”, and Plastic Surgery is starting to do the same. Check with the section for details, and refer to your Residency Process Booklet.

If you are applying in **both Preliminary Medicine and transitional programs**, you could use the same set of letters for both if the letters are generic in their specialty designation.

Navigating ERAS:

The Electronic Residency Application Service

Definitions

ERAS

The Electronic Residency Application Service

ERAS is the web-based program students and staff use to compile and distribute residency application components.

NRMP

The National Resident Matching Program

The NRMP is a nationwide non-profit organization that standardizes the residency matching process. Students submit rank lists to NRMP, *not* through ERAS.

You must register for both ERAS and the NRMP!

Register

Dear Dr. Rebecca Silverman,

Welcome to MyERAS! Your AAMC ID is 14038081 and your User Name is RSILVERMANBSD.
You will use this User Name to access all AAMC applications.

To return to MyERAS, or if you need additional information on ERAS, please visit
www.aamc.org/eras.

Things to remember:

1. All passwords are case-sensitive. The password 'DOCTOR' is not the same as the password 'doctor'.
2. You will not be able to certify your application until September 5th at 9:00 AM ET.
3. Being registered with ERAS does not mean that you are registered with the NRMP or any other Match. To register with the NRMP, visit their Web site:

www.nrmp.org

Sincerely,

MyERAS Support
myeras@aamc.org

[ERAS Support Contact Form](#)
(202) 862-6264
Monday - Friday 8am - 6pm ET

Before selecting "Yes", please verify that your email address is correct in the "Personal Information" tab under the "Application" section.

Are you planning to apply for a residency position at an ACGME-accredited Emergency Medicine program? If you select "Yes", you will receive an invitation to complete the [AAMC Standardized Video Interview](#), which is required for ACGME Emergency Medicine programs. You may change your selection from "Yes" to "No" at any point before you complete the interview. Your response to this question will not be displayed in your MyERAS Application/CV. The specialty requested that all applicants complete the AAMC Standardized Video Interview between 09:00 AM ET on June 6 and 11:59 PM ET on July 16, 2019. *

- Publication Status:** Accepted [dropdown]
- Month:** [dropdown]

The modal window also includes "Cancel" and "Save" buttons at the bottom right. The background shows the MyERAS application interface with a sidebar menu and a main content area.

Guiding Principles for Listing Publications

- Be honest in representing all of your myriad accomplishments—but do not try to pad your application
 - Certain situations *will* require that you list things twice under two separate categories
 - Use your best judgement, and then...
 - **Consult your Career Advisor!**
- When it is not reasonable to list multiple similar or identical publications/presentations, list them once under their “highest value”. In order, that is:
 1. Manuscript
 2. Published abstract
 3. Oral presentation
 4. Poster presentation
- National > Regional > Local

FAQs: How to List Publications

Q: For poster presentations, should we list internal conferences like Medical Education Day or SRP?

A: Yes. Include poster presentations given at any formal, organized event, even if they are internal.

Q: If I was listed as an author on a poster or oral presentation but did not present it, should I list it?

A: Yes, you may include it as a poster; annotate who the presenting author was with an asterisk in the author line, or in a description box. Make sure you list the authors in the correct order.

Q: If I am going to do an oral presentation in a month, do I put "anticipated" oral presentations?

A: Yes, you may do that.

FAQs: How to List Publications (continued)

Q: Does my thesis defense count as an oral presentation?

A: No, it does not count as a separate oral presentation. It will be implied by your PhD.

Q: Do presentations in front of my departments or during rounds count?

A: No.

Q: Are abstracts considered published if they are published in a conference booklet only?

A: No, abstracts are not considered published if they are not disseminated beyond the conference. If they were a poster, though, you may put it in the poster section. Do not list things twice (i.e. once in a poster section and once in an abstract section—just list the abstract).

Q: Can I list manuscripts currently in preparation?

A: No. However, if they have been submitted, you can choose submitted from the drop-down in ERAS. Be prepared to answer any questions about the status of the manuscripts.

B I U S [List Icon] [List Icon] **C** [Undo] [Redo] [List Icon] [List Icon] [List Icon] [List Icon] [List Icon]

Years ago, I was involved in a junior version of the Rube Goldberg Competition. Participants in this annual national engineering contest work within a set of parameters to design the most creative device possible that accomplishes a basic task such as placing a ball into a cup. My team always did well. However, it is the countless hours spent brainstorming, exciting energy exchanges, and creative engineering solutions that I am most fond of. The exhilarating rush of working with a team to generate a detailed plan for a problem and adapting it as new challenges arose was indescribable. Even then, I knew that I wanted a career that recreated that "rush." I found what I was looking for in Internal Medicine.

My fascination with Medicine began with my father. Over a decade ago, he suffered a "widow maker" heart attack. Thanks to the prompt medical care he received at the hands of skilled physicians, he survived. Since that day, I have curiously observed as my father's physicians have worked to scientifically and strategically optimize his health. My father's ongoing journey has been an inspiration for my career as well as my research interests. It has been a privilege applying the lessons I have learned from him about patient care to the care of my own patients. For instance, as a student, it is a powerful feeling to know that the trust you have forged with a shy twenty-two year old has freed him to speak candidly with you about his sexual history— particularly when the subsequent testing is diagnostically revealing. The full story of this young man's HIV diagnosis highlights the dedication, teamwork, and professionalism necessary

Personal Statement Preview

The screenshot displays the MyERAS 'Create Personal Statement' interface. The top navigation bar includes 'AAMC', 'Dashboard', and 'Application'. The user's name, 'Kai Doe', and AAMC ID, '14230291', are visible in the top right. The main content area shows a preview of a personal statement for 'Doe, Kai R. (14230291)'. The statement is titled 'Personal Statement' and is displayed on 'Page 1 of 1'. The text of the statement is as follows:

Years ago, I was involved in a junior version of the Ruble Goldberg Competition. Participants in this annual national engineering contest work within a set of parameters to design the most creative device possible that accomplishes a basic task such as placing a ball into a cup. My team always did well. However, it is the countless hours spent brainstorming exciting energy exchanges and creative engineering solutions that I am most fond of. The exhilarating rush of working with a team to generate a detailed plan for a problem and adapting it as new challenges arose was indescribable. Even then, I knew that I wanted a career that resembled that "rush." I found what I was looking for in Internal Medicine.

My fascination with Medicine began with my father. Over a decade ago, he suffered a "widow maker" heart attack. Thanks to the prompt medical care he received at the hands of skilled physicians, he survived. Since that day, I have curiously observed as my father's physicians have worked to scientifically and strategically optimize his health. My father's ongoing journey has been an inspiration for my career as well as my research interests. It has been a privilege applying the lessons I have learned from him about patient care to the care of my own patients. For instance, as a student, it is a powerful feeling to know that the trust you have forged with a shy twenty-two year old has freed him to speak candidly with you about his sexual history - particularly when the subsequent testing is diagnostically revealing. The full story of this young man's HIV diagnosis highlights the dedication, teamwork, and professionalism necessary to effectively address the complexities in Medicine. Utilizing a knowledge base of great breadth and depth, my residents and attendings in Medicine effortlessly addressed a multitude of medical and social issues with confidence and compassion. These are the physicians I want caring for my own father and the kind I aspire to become.

Communicating with my patients the fine points of their hospital course has been one of the most gratifying aspects of working clinically. In the research realm, I cherish opportunities to discuss with colleagues the details of my findings. Exchanging ideas on the unsolved mysteries underlying ischemia-reperfusion injury and therapeutic hypothermia evokes a visceral sensation that is identical to the thrill I discovered years earlier as a tennis instructor, dissecting and developing the techniques of novices over months and years as they evolve into budding tennis players has been incredibly rewarding. In the hospital, I have been able to achieve this same sense of satisfaction by working to enhance my patients' awareness of base health problems. Coming from a family of teachers, it is the abundance of opportunities to teach, educate, and thereby impact the lives of others that draws me to the field of Internal Medicine.

It has been over ten years, but I still feel a surge of adrenaline when I reflect upon my Ruble Goldberg days. The patience, dedication, optimism, and leadership that this banking experience demanded are the same qualities that are exercised daily by my mentors in Medicine. After residency, I hope to pursue an academic career in which I can coach the next generation of physicians while continuing to research my interest in improving outcomes following cardiac arrest and resuscitation. It is invigorating to know that I am on the cusp of a career that will routinely recreate that Ruble Goldberg "rush." Thus, it is with great enthusiasm that I look ahead to my next chapter in training as a resident in Internal Medicine.

At the bottom of the preview window, there are 'Back' and 'Save' buttons.

I am requesting that you submit my Letter of Recommendation (LoR) to the Electronic Residency Application Service (ERAS), which transmits my LoR(s) to the residency programs to which I am applying.

ERAS Letter of Recommendation Portal (LoRP)

The Electronic Residency Application Service (ERAS) Letter of Recommendation Portal (LoRP) is a centralized service that allows LoR Authors to upload LoRs for applicants applying to ERAS residency programs.

ERAS has established a set of guidelines that should be reviewed prior to writing and uploading LoRs using the LoRP.

For more information about the LoRP guidelines, additional resources, and to access the LoRP login, please visit https://www.aamc.org/services/eras/282520/lor_portal.html.

- Review the information below. If any information is inaccurate, contact the applicant directly so they can make corrections.
- Login to the ERAS LoRP to upload this letter using the unique **ERAS Letter ID** above.

USMLE Transcripts

Three steps to releasing your scores:

1. Authorize release through ERAS to sync current scores
2. Assign the USMLE score to a specific program (under the Programs section)
3. Once you receive updated Step 2 scores, go back into MyERAS and **retransmit** your scores
 - Think strategically about when or whether you want to release your Step 2 scores—discuss this with your Career Advisor or Dr. Woodruff.

Programs

AAMC Apply Smart data

The screenshot shows the AAMC website navigation bar with links for Members, Students, Residents, Advisors, Advocacy, Calendar, Data, and Finance. Below the navigation bar are three main menu items: 'Choosing a Medical Career', 'Applying to Medical School', and 'Attending Medical School'. The 'Applying to Residency' menu item is highlighted in pink. The breadcrumb trail reads: Home > Applying to Residency > Apply Smart for Residency > Researching Residency Programs and Building an Application Strategy. The main heading is 'Apply Smart: New Data to Consider'. Below the heading is a sub-heading: 'Your likelihood of securing residency training depends on many factors. One of many considerations is the number of residency programs you apply to.' The main text begins with 'Your likelihood of securing residency training depends on many factors. One of many considerations is the number of residency programs you apply to.' It then discusses the study's goal and findings, mentioning a 'point of diminishing returns' and providing a 'Study methodology' section. The text states: 'The researchers used data from applicants who applied through the AAMC Electronic Residency Application Service® (ERAS®) to residency programs in select specialties from 2011 to 2016. The exceptions are

Apply smart in anesthesiology: New data to consider

Included in the study were data from 9,424 U.S. MD applicants who applied to anesthesiology programs in ERAS® between 2011 and 2015 and who reported a score for the USMLE Step 1 exam.

Figure 1

Point of Diminishing Returns for Entering an Anesthesiology Residency Program for U.S. MD Applicants

- Number of Applicants = 9,424; this analysis included U.S. MD applicants only. For this specialty, the researchers predicted whether an applicant entered an anesthesiology residency program in either the first or second year after application because some programs in this specialty required a preliminary year.
 - The point of diminishing returns is the point at which the value added by submitting one additional application is reduced relative to the value added by each application before reaching the point of diminishing returns. The addition of one application beyond this point results in a lower rate of return on an applicant's likelihood of entering a residency program.
 - The point of diminishing returns is an estimate and is not perfectly precise. Therefore, confidence bands around the point of diminishing returns are provided. The lower and upper bounds of each confidence band are shown (a) below the point of diminishing returns in the circle and (b) by the shading around the vertical lines. The width of the confidence band describes the precision of the estimate, with wider bands indicating less precision.
- Source: AAMC Data Warehouse; ERAS file accessed on March 21, 2018.

NRMP Residency Explorer

Residency Explorer

About FAQ Help

RESIDENCY EXPLORER

Residency Explorer delivers insights about residency programs based on original-source, verified data.

Residency Explorer will allow you to explore and compare residency programs in 11 specialties and compare your profile to applicants who matched at each program. Residency Explorer is a **working prototype**, which means that not all the features and functions are fully developed. We encourage you to consult with a trusted advisor or mentor as you research programs.

To begin using Residency Explorer, click [Login to Account](#) and sign in using your AAMC username and password. If you do not have an AAMC account, follow the steps to create an account.

[Login to Account](#)

Residency Explorer includes information on programs in the following specialties:

- Anesthesiology
- Dermatology
- Emergency Medicine
- Family Medicine
- Internal Medicine*
- Obstetrics and Gynecology
- Orthopaedic Surgery
- Pediatrics
- Psychiatry
- Radiology (Diagnostic)
- Surgery (General)*

* Preliminary & Categorical tracks

When using the Apply Smart data, remember...

- No advice is one-size-fits-all.
- You may receive different advice from different advisors or mentors.
 - This is a complex process with multiple possible approaches and a high degree of uncertainty.
 - This happens all the time in life, not just in residency advising!
- Use all data and advice at your disposal to make the best decisions for you.

Programs (searching by number)

The Department of Anesthesiology at Boston Medical Center offers two program tracks for the NRMP match. The Categorical track (# 1257040C0) is a 4-year program which includes a preliminary surgical year in conjunction with the Boston VA Healthcare System. The Advanced track (# 1257040A0) is a 3-year program where the applicant would need to secure a first-year position elsewhere. We offer 9 positions in the NRMP match each year; in the 2013 match we had 4 Advanced and 5 Categorical positions available.

This is an NRMP ID, *not* an Accreditation ID. If you are looking up a program by number and not finding it, it's likely to be an NRMP ID. We recommend searching by specialty instead.

2019-20 ERAS Fees

Base Fee, 1-10 applications	\$99
Applications 11-20	\$15 each
Applications 21-30	\$19 each
Applications > 31	\$26 each
USMLE Transcript Fee	\$80

- Example 1
 - **30 Emergency Medicine programs:** $[\$99.00 + (10 \times \$15.00) + (10 \times \$19.00)] = \439
- Example 2
 - **20 OB/GYN programs** $[\$99.00 + (10 \times \$15.00)] + 10$ **Family Medicine programs** $[\$99.00] = \348

2019-20 NRMP Fees

Base Fee	\$85 for 20 ranks
Late registration fee	\$50 if you register after November 30
Couples	\$25 per partner
Additional Programs	\$30 for every program ranked above 20 ranks

From the NRMP: The NRMP also has capped at 300 the number of ranks allowed for individual applicants and applicants participating in the Match as a couple. In addition... there will be a new Length of Rank Order List Fee. Lists with 100 or more ranks will incur stepped fees, up to a maximum of \$200 until the 300 rank cap is reached. These changes are being made to prevent applicants from entering over-long ROLs, some of which have exceeded 700 ranks without any apparent benefit to the applicants' Match outcome.

Pritzker 2018-19 Data

Data from our annual post-Match survey

9. How much money do you estimate that you spent applying and interviewing during the residency application season (including application, travel, and hotel costs)? Please round to the nearest \$10.

Statistic	Value
Mean	\$3,358
Median	\$2,825
Mode	\$3,000
Standard Deviation	\$2,533
Valid Responses	62
Total Responses	62

*Richard in Financial Aid is here to work with you to help with these costs.
Also, look out for info on our free alumni hosting program when traveling for interviews!*

MyERAS Application Release

Do you give your Designated Dean's Office permission to view your application once it has been submitted? *

Yes No

Certify *

I certify that the information contained within the MyERAS application is complete and accurate to the best of my knowledge. I understand that any false or missing information may disqualify me from consideration for a position; may result in an investigation by the AAMC per the [attached policy](#) (PDF); may also result in expulsion from ERAS; or if employed, may constitute cause for termination from the program. I also understand and agree to the [AAMC Web Site Terms and Conditions](#) and to the [AAMC Privacy Statement](#) and the AAMC Policies Regarding the Collection, Use and Dissemination of Resident, Intern, Fellow, and Residency, Internship, and Fellowship Application Data ([attached policy](#), PDF) and to these AAMC's collection and other processing of my personal data according to these privacy policies. In addition, I consent to the transfer of my personal data to AAMC in the United States, to those residency programs in the United States and Canada that I select through my application, and to other third parties as stated in these Privacy Policies.

Adding Programs After September 15

You can add programs *after* you have submitted your
ERAS application,

but you must re-assign your USMLE scores and photo

Top 5 ERAS Points

1. Hit “Save” all of the time, and proofread.
 - View your ERAS application in both CV and “application” formats
 - Print your Assignment Report and make sure you assigned all your documents
2. Remember to click the final “Certify and Submit” button between September 5-15, and have your credit card ready! (We will send a reminder. Many reminders.)
3. Be deliberate when naming and assigning your letters and personal statements.
4. Track the status of your LORs and assign LORs to programs once they arrive.
5. You can add programs after Sept. 15, but be sure to re-assign your documents and USMLE scores.

Upcoming Class Meetings

September 25

MS4 Class Meeting #3: Interviewing for Residency

January 22, 2020

MS4 Class Meeting #4: Preparing your Rank List

March 20, 2020

Match Day!
